

**Responses to Questions Regarding RFP Marketing And Outreach
February 17, 2017**

1. With the 3-5 page document limit, is it acceptable to print on both sides?
While it is acceptable to print your response on both sides, we define a page as a single side and we request that bidders keep their responses to 3-5 pages. Finalists will have an opportunity to provide additional details about their proposal during an interview.

2. I am assuming that the signed attachments at the end of the RFP will not be counted as pages of content, is this correct?
Attachments are not included as the page limitation applies only to the narrative requested in question 7 of the RFP.
